coffee peeling

in pure spa at the hotel le palais prague

Enjoy the Coffee Peeling in Pure Spa

Coffee Peeling is an experience not only for your body, but also for your senses.

The Coffee peeling very positively stimulates the blood circulation and mind. Perfectly cleans and regenerates the skin. Used products - almond oil and ground coffee – gives the body the necessary vitamins, minerals and antioxidants.

It is very important to have enough free time not only for the massage itself, but also afterwards.

Enjoy the moments after a nice relaxing massage in our relax room. Feel your positive spirit and the energizing coffee smell.
